

# Products and supplementary services of DB Schenker direct transport

## Model example of transport from Prague to Dresden

### FTL: DB SCHENKER *full load*

Realization of shipment transport that usually takes up the whole vehicle. It is the fastest, but also the most costly type of transport. Usually, the shipments transported this way are over 11 t, however smaller shipments can be transported as well, if a customer so wishes. Various types of vehicles are available.

### LTL: DB SCHENKER *part load*

Realization of shipment transport that only takes up part of the vehicle. Compared to the FLT transport it is less costly, but the transport does take more time. Usually, the shipments transported this way take up an area from 2 to 11 t.

D = the day of the shipment pick up, it is only a model example, the exact dates of delivery to individual destinations are available in the transport scheduling app on the eSchenker portal.

D = the day of the shipment pick up, the exact dates of delivery to individual destinations are available in the transport scheduling app on the eSchenker portal.

	Order possibility			Transport execution		
	D-X	D-3	D-2 till 15:00	D-1	D	D+1
