DB SCHENKERsystem

- Standard transports of groupage shipments in the Czech republic and to/from the other countries
- Because of goods flow optimisation, the delivery term can be 1 day longer compared to given transport schedule, or 2 days in the case of the distance over 1 200 km, respectively

Principle of DB SCHENKERsystem product function

D = the day of shipment collection; a model example, precise delivery dates to individual destinations are available in the Scheduling application on eSchenker portal

Order	Collection	Delivery		
D-1	D	D+1	D+2	D+3
until 16:30*	until 10:00 order possibility		8:00 - 16:00	8:00 - 16:00

econeutral: your optional carbon footprint compensation

With the choice of econeutral you compensate easily the carbon footprint of your shipments

We are taking another important step on the way to provide ecological logistics services. Choosing the econeutral service will allow you offsetting of your carbon footprint through projects for climate protection with CDM certification. Our partner is European organization atmosfair, actively contributing reduction of CO₂ emissions by dealing with environmental protection. Promoting and developing renewable energy sources in more than 15 countries worldwide.

The **econeutral** is available for you as optional service with products, as are DB SCHENKER**system**, DB SCHENKER**system home** including DB SCHENKER**system premium**. It is possible to combine it with the other optional services, too.

The purpose of carbon offset projects is not only to neutralize CO₂, but also to promote sustainability through accessible technologies and the fight against poverty.

Our environmental goal is to reduce our CO₂ emissions at least by 34% until year 2030 compared to 2006 and to achieve zero emissions by year 2050.

You can support emission-neutral logistics, too. By contributing EUR 0.17 per tonne per 100 km transport routes, you will support the sustainability of our environment. The price in CZK is recalculated according to the current exchange rate.

Order ecologically neutral transport of your groupage shipment in eSchenker portal according pre-set template. In the case of EDI ordering, econeutral can be chosen as an additional service.

Price example:

Praha - Brno, 207 km, 1 ton = 0,82 EUR

Praha - Brno, 207 km, 500 kg = 0,54 EUR

Ostrava - Varšava, 400 km, 200 kg = 0,14 EUR

Ostrava - Varšava, 400 km, 1 200 kg = 0,82 EUR

Create the ecological logistics with us.

Commitment to green logistics
